DES MOINES, February 27, 1862.

REPORT.

To the Hon. S. J. Kirkwood, Governor of Iowa:

I hereby submit my report as Commissioner of the blind asylum at Vinton.

On the 11th day of June, 1860, I received the appointment of Commissioner and immediately entered upon the duties of my office. In order to conform to the Act of the Legislature, approved April 3, 1860, requiring the plans of the building to be so changed as to bring the cost of completing the same within a specified sum, I employed Messrs. Finkbine & Lovelace, Architects, to furnish plans and specifications for the above named changes.

On the 3d day of July, I published a notice in the "Vinton Eagle" inviting proposals for enclosing and completing the building, until the 20th inst. Said notice stating that the contractor would take the building in the condition it then was, together with all the tools owned by the State, the materials on hand, and the brick contracted to the State, and that the proposals would be for a specific sum in addition to the above. I received three propositions, the most favorable of which, for the State, was that of Messrs. Finkbine & Lovelace, which I accepted, a copy of which together with a copy of the contract made with said parties is annexed.

Before making the contract for enclosing the building, I submitted the plans and specifications for the same together with the proposal of Messrs. Finkbine & Lovelace to the Governor, who approved the same by so endorsing them. I found on file in my office two contracts for furnishing brick to the State, neither of which had been fulfilled, and to both of whom my predecessors in their reports, had shown balances due. One of the said contractors, Mr. G. W. Sells, subsequently filled his contract and was paid the balance due him. The other, Mr. E. Erwin, still owes to the State eighty-five thousand brick, and has been paid according to the report before alluded to, within one hundred and forty-six dollars of the whole amount of his contract price.
